

PORT-A-MAST™ Solutions

OMJC Pop-Up Jr.™

Pop-Up Jr. Features:

- **Ready and Waiting**

With the Pop-Up Jr. you are ready to respond quickly and with effectively no preparation. Built with quality & affordability. Remote control removes Flagger from danger zone, and increases safety.

- **Fast and Efficient**

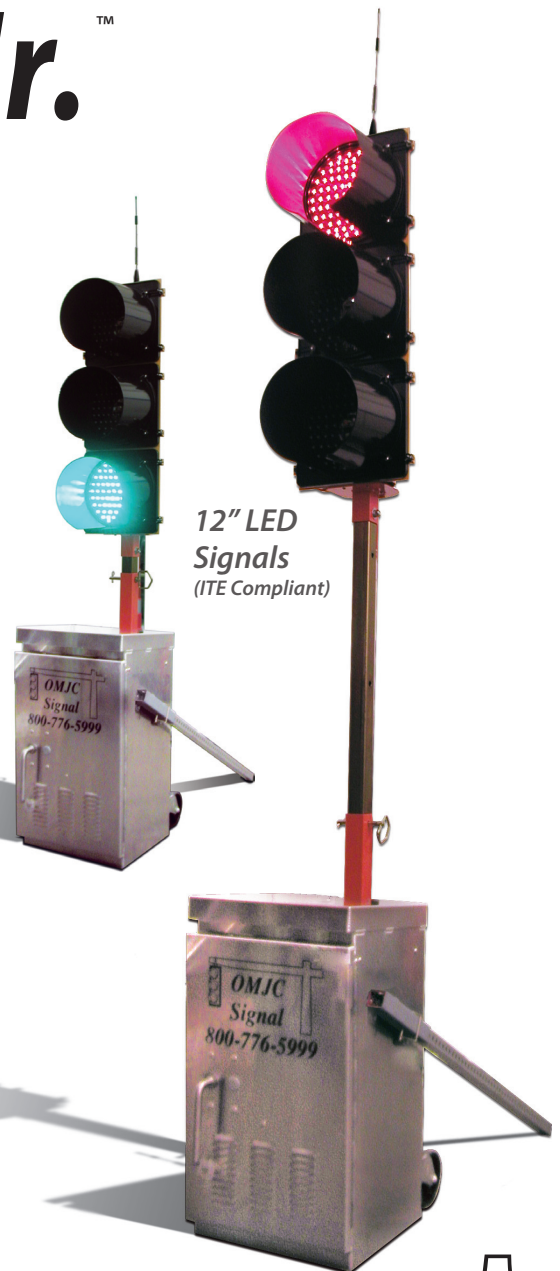

Unload the units. Set your times, raise up the signals, and get back to work. Powered with state of the art Absorbed Glass Mat batteries and radio controller.

- **Run Time**

The Pop-Up Jr. will run up to 7 days of continuous operation before a re-charge is needed.

- **Applications**

Ideal deployment solutions include construction projects, one-lane road repair closures, school zones, sporting events, temporary parking lots. Or as an added node/phase to a larger system.

12" LED Signals
(ITE Compliant)

Quality Control and Batteries

- Intelight™ traffic controller
- EDI monitor

- No fuss, corrossions, or spills, -40 to +140°F, long life, and fast charging
