

# PORT-A-MAST™ Solutions

## OMJC Knockdown Pop-Up™

### A Truly Portable Mast Arm

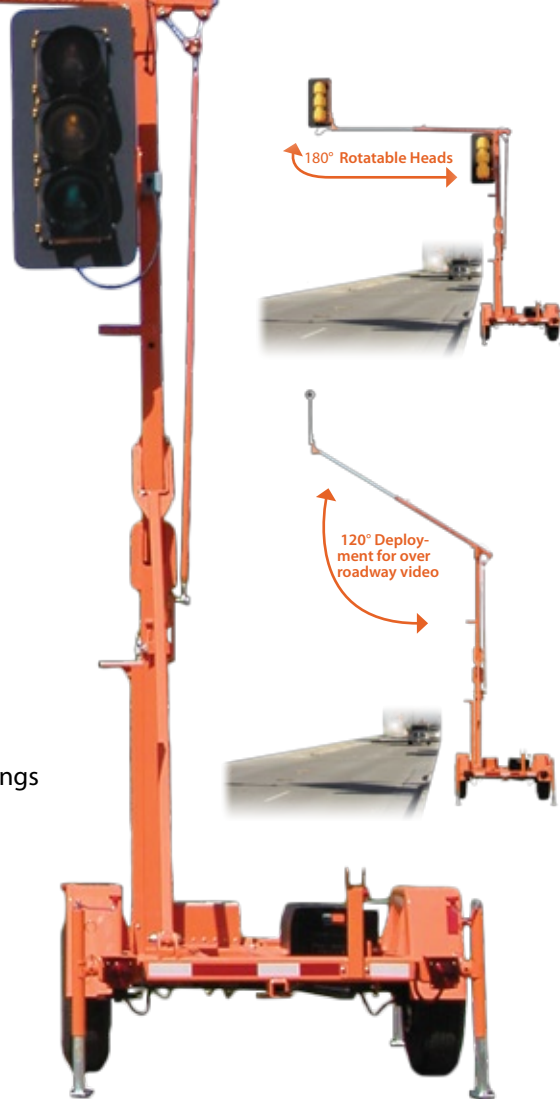

The "multi-tool" of the traffic industry. Just like the multi-tool you always keep ready at your side, the OMJC Pop-Up™ Knockdown is **portable, versatile, quick, and easy** to use. Cut labor costs and tort exposure. Use it alone for immediate emergency pole replacement after a knock down, or planned construction projects. Add video equipment and detect, count and classify traffic, or do real-time surveillance.

#### Knockdown Pop-Up™ Features:

- 17 foot vertical clearance
- 15 foot horizontal extendable mast arm
- 6 feet wide x 10 feet long footprint. 80 MPH wind loading
- 12" ITE approved signal heads with backplates, optional colors available
- Tamper proof fasteners, lockable jacks & enclosures, removable hitch
- Tows easily at highway speeds. Can tow in tandem
- Hand pendant operated mast arm deployment
- Powder-coated orange finish
- Optional signal head arrangements available, including 5 section mountings
